Textbook Basics

- Many of our required readings are in electronic format and will be accessed through the students device. However, not all the publishers use a format compatible with devices so not all books are available electronically at this time. Until there are more ebooks available that fit our needs, we will be using a combination of ebooks and traditional books for our classes.

- All the **ibook** titles listed have a link to the correct book as they do not have unique ISBN numbers.

- The 13-digit ISBN number provided on the list should be used to locate and purchase a traditional book. **You must verify the ISBN number when purchasing books….it is the only way you can be assured of getting the correct book.**

Textbook Basics

- In order to help understand the ebook market, we have provided the following definitions of the terms most often used when referring to digital books:

Term	Description
EPUB	EPUB is a file format for ebooks, used by many ebook readers and the iPad.
Ebook	A shortened version of the term electronic book, now often used to describe any digital book.
Web access ebook	Students purchase an access code from the provider and redeem it at the provider's website (i.e. Coursesmart or Pearson). Access to the book is then available to the student for a pre-determined length of time via the web access portal or iPad app. Depending on the title, students have access to the book for 180 to 360 days from the date of initial access. This is different than an iBook and not accessible from the iBookstore.
ibook	iBook is the proprietary file format used by Apple for their digital books sold in the iBookstore or created using the iBooks Author application. iBooks, once purchased, are generally available to the student permanently.
Traditional books	Traditional books are those that come in a paper format, whether it be hardcover or paperback.

The Textbook List

- The textbook list is located at www.jesuithighschool.org

- The list is broken down by operating system: iOS or Windows/Chrome.

- Books are listed by grade level then Department. Use your son's schedule to determine the books needed.

- Web Access books should be ordered **no later than July 19** to ensure that they will arrive on time. Most publishers do not email the access code; the codes are usually sent via regular mail. This process can take 3-4 weeks.

- Some publishers will send the access code directly to Jesuit. These books are identified on the booklist and will be distributed directly to the students the first full week of school.

The Textbook List

- Students and families will have the option of a traditional book or an ebook, if available.

- To ensure that your book order arrives on time, please check the processing and shipping information provided by the book seller. Processing time does not include shipping time and **can add a minimum of 5-7 business days** to your order.

- Students and parents should take into consideration the potential for schedule changes before purchasing any books.

- Regardless of where you choose to purchase your books, it is the student's responsibility to have his textbooks by the first day of class each semester.
